

Children's Birthday Parties

Laser tag is fast becoming the most popular activity for Children's Birthday Parties

This is because it is

- **FUN**

Children love the fact they can play their favourite computer game such as Black ops, or Call of Duty for real instead of on the computer, not only does it get your child, interacting with other children, it also has the added benefits, of teaching them, social skills, giving them exercise a much needed factor in today's society where more and more children are becoming obese through a combination of fast foods, and lack of exercise sitting in front of a computer

- **SAFE**

We only use the latest state of the art equipment which is wireless and digital; there are no projectiles, therefore no bruising and your child will have hours of fun with none of the pain involved with say Paintball

- **PROMOTES SOCIAL SKILLS**

Instead of playing games by themselves on the computer, they will now be running around with friends, talking to each other, gaining exercise, interacting and team building, making closer bonds with their friends, back to how it used to be in the old days, before computers and TV where your child now sits on their own looking at a box

- **CHEAP FIXED PRICE AS OPPOSED TO FOR EXAMPLE PAINTBALL**

As the guns are electronic, they can be pre-programmed with as much ammunition as required, so your children can fire off as many shots as they like, with you safe and secure it the knowledge that it is not going to cost you extra

Bronze. 1hrs of laser tag for 8-20 players. £15 per head. You come to us. Game only

Silver. 1.5 hrs of laser tag for 8-20 players. £20 per head. You come to us. Game only

Gold. 2 hours of laser tag for 8-20 people. Includes hire of the hall for providing your own food, you come to us. £25 per head. Time includes game and party

Once booked we can send you an invitation slip which you can fill out with your child's name on, which will have the time and date of your party, this you can then forward to all your child's friends.
